Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all transla-

tion rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US \$ 0.20 per page, or a minimum of US \$ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0025-3162, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

- Aarset AV, Aunaas T: Influence of environmental salinity on oxygen consumption and ammonia excretion of the arctic under-ice amphipod *Onisimus glacialis* 9
- Aarset AV, Aunaas T: Metabolic responses of the sympatric amphipods *Gammarus wilkitzkii* and *Onisimus glacialis* to acute temperature variations 433
- Ambrose RF, Anderson TW: Influence of an artificial reef on the surrounding infaunal community 41
- Amouroux JM → Grémare A
- Amsler CD, Neushul M: Nutrient stimulation of spore settlement in the kelps *Pterygophora californica* and *Macrocystis pyrifera* 297
- Andersen KP → Kørboe T
- Anderson TW → Ambrose RF
- Astthorsson OS: Ecology of the euphausiids *Thysanoessa raschi*, *T. inermis* and *Meganyctiphanes norvegica* in Ísafjord-deep, northwest-Iceland 147
- Auffret M → Beninger PG
- Aunaas T → Aarset AV
- Avise JC → Bowen BW
- Batel R → Ugarković D
- Batty RS, Blaxter JHS, Richard JM: Light intensity and the feeding behaviour of herring, *Clupea harengus* 383
- Beninger PG, Auffret M, Le Pennec M: Peribuccal organs of *Placoplecten magellanicus* and *Chlamys varia* (Mollusca: Bivalvia): structure, ultrastructure and implications for feeding. I. The labial palps 215
- Beninger PG, Le Pennec M, Auffret M: Peribuccal organs of *Placoplecten magellanicus* and *Chlamys varia* (Mollusca: Bivalvia): structure, ultrastructure and implications for feeding. II. The lips 225
- Bergstad OA: Distribution, population structure, growth and reproduction of the roundnose grenadier *Coryphaenoides rupestris* (Pisces: Macrouridae) in the deep waters of the Skagerrak 25
- Besten PJ den, Herwig HJ, Donselaar EG van, Livingstone DR: Cytochrome P-450 monooxygenase system and benzo(a)pyrene metabolism in echinoderms 171
- Blaber SJM, Brewer DT, Salini JP, Kerr J: Biomasses, catch rates and abundances of demersal fishes, particularly predators of prawns, in a tropical bay in the Gulf of Carpentaria, Australia 397
- Blaxter JHS → Batty RS
- Bogaards RH → Paulij WP
- Bowen BW, Avise JC: Genetic structure of Atlantic and Gulf of Mexico populations of sea bass, menhaden, and sturgeon: influence of zoogeographic factors and life-history patterns 371
- Brewer DT → Blaber SJM
- Canicatti C → Roch P
- Castel J, Veiga J: Distribution and retention of the copepod *Eurytemora affinis hirundoides* in a turbid estuary 119
- Charpy L → Charpy-Roubaud CJ
- Charpy-Roubaud CJ, Charpy L, Cremoux JL: Nutrient budget of the lagoonal waters in an open central South Pacific atoll (Tikehau, Tuamotu, French Polynesia) 67
- Chen J-C, Ting YY, Lin J-N, Lin M-N: Lethal effects of ammonia and nitrite on *Penaeus chinensis* juveniles 427
- Clement P → Smith REH
- Cremoux JL → Charpy-Roubaud CJ
